

Dr. Stokes

Dr. Joel Stokes is committed to being Las Vegas' favorite dentist. Along with featuring the latest in restorative and preventative dentistry, he gives of himself with his personal approach to family dental care.

Time is very valuable and waiting time is minimal. Each new patient meets with Dr. Stokes for about 20 minutes to establish a doctor patient relationship and make sure it will be a positive one. Then Dr. Stokes will provide an exam and schedule a follow-up consultation.

He makes certain that every patient and their family understands that the protection of a patient's health is at the top of his standards. Dr. Stokes takes extra measures to coordinate each patient's medical and dental care. He designed his current office with a state-of-the-art sterilization room, and all staff strictly adheres to all OSHA and CDC sterilization standards. All instruments remain sealed in a sterile field until opened for the specific patient.

Dr. Stokes' extensive focus on comprehensive dentistry is combined with his dedication for one-to-one interaction with patients and helping them to look and feel better in a high-trust, low-stress environment. Some of the newest procedures his practice offers include all forms of general dentistry, the removal of silver fillings that are replaced with non-metallic dentistry, Invisalign, dental implants and porcelain veneers.

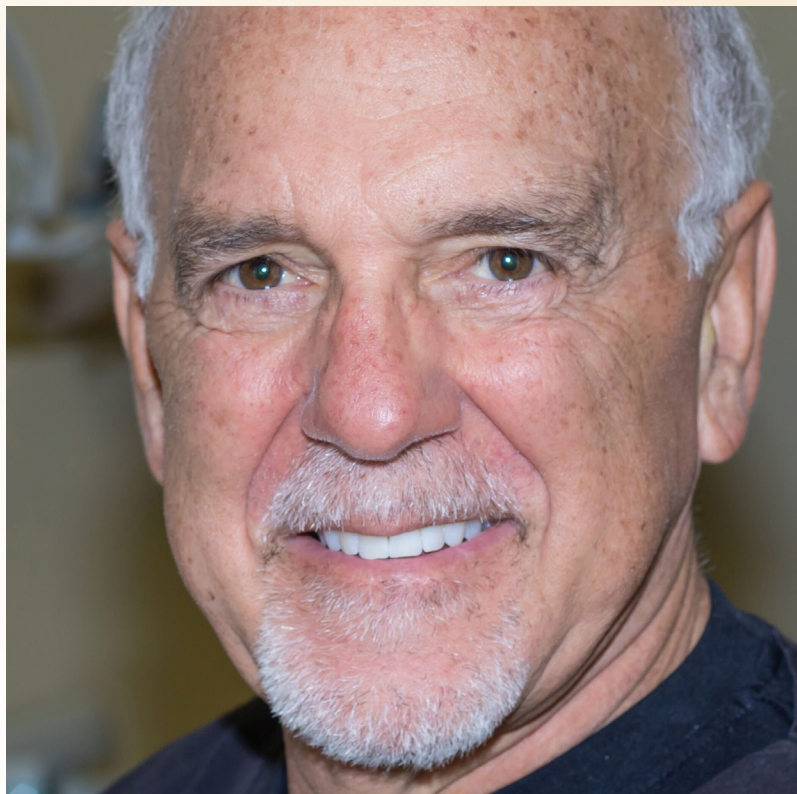

Natural looking dentures and non-metallic partials meet that the highest standards of modern denture prosthetics are used. Skilled, gentle, knowledgeable dental hygienists give undivided attention during cleaning visits. The most advanced, non-surgical periodontal therapy is available for continued dental health.

Eastern Canyon Dental utilizes opalescence tooth whitening systems and products. Many factors, including dietary habits (drinking coffee, tea, soda and red wine) and certain medications, affect the whiteness of a smile. Tooth whitening is an affordable and effective way to combat common causes of tooth discoloration while boosting self-confidence and improving appearance.

Dr. Stokes is very patient and understands that sometimes not everyone is able to keep up with their regular dental care. Dr. Stokes never judges anyone. He only wants to help patients spend the smallest percentage of time for dental treatment. He provides the same level of dental health care to his patients that he would to a member of his family.

As a respected dentist by his colleagues and patients, as well as an expert in the field of veneers, he is now training other dentists on his procedures. This is his gift of education so that many can benefit from his knowledge.

Eastern Canyon Dental is a proud member of the Las Vegas Metro Chamber of Commerce, Henderson Chamber of Commerce and American Dental Association. **LWW**

“Dr. Stokes’ extensive focus on comprehensive dentistry is combined with his dedication for one-to-one interaction with patients and helping them to look and feel better in a high-trust, low-stress environment.”
